

## **Clinical Research Associate (CRA) – German & French Speaking**

### ***Graduate or Entry-Level / Associate***

At ClinSearch, we develop innovative solutions across clinical research, patient-centered healthcare systems, market access, and public health. As a growing European healthcare organization, we're looking for a Clinical Research Associate (CRA) fluent in German, with advanced English and French to join our international team.

We are open to receiving applications from experienced CRAs or recent graduates from scientific disciplines, provided that the candidates have the required language skills. Thorough training in clinical research guidelines and company SOPs will be provided, as well as shadowing of more experienced members of the Monitoring team.

### **Why Join Us?**

- Structured **training program** in clinical research, GCP, ISO, and ICH guidelines
- Hands-on **mentorship and shadowing** with experienced CRAs
- Exposure to **international clinical studies** and regulatory environments
- Opportunity to grow into a fully independent CRA role

### **What You'll Do**

- Monitor clinical trial sites in Germany and France
- Support communication with Institutional Review Boards (IRBs), including documentation and submissions
- Collaborate with investigators and clinical teams to ensure compliance with Good Clinical Practice (GCP)
- Assist in developing SOPs, templates, and study documentation in line with regulatory standards
- Contribute to the overall quality and integrity of clinical trials

### **What We're Looking For**

- ✓ BA/BSc or **MA/MSc** degree

- ✓ Some initial clinical research or clinical training experience (desired but not required)
- ✓ Fluency in German, advanced English and French
- ✓ Excellent interpersonal and communication skills
- ✓ Comfortable working independently as well as in a team
- ✓ Strong customer focus

### **What We Offer**

- Competitive Salary Package
- Exempt position
- Group Insurance Coverages
- 5 weeks of holidays plus 10 extra days
- A supportive environment with training, mentorship, and career growth opportunities
- Exposure to international clinical research projects
